Name:	Unit 5 - HASS Year 5 (V8)	Duration:	4 Weeks
Year Level/s:	5	Type:	Master
Class:			
Learning Area/ Subject:	Humanities and Social Sciences	Teachers:	Corporate

Unit Plan

Consumer decision-making in Australian communities

In this unit, students will:

- examine how to distinguish between needs and wants
- Identify why choices need to be made about how limited resources are used
- Investigate how different types of resources are used by societies to satisfy needs and wants of present and future generations
- describe a variety of factors influence consumer choices
- identify and present findings about different strategies that can be used to help make informed personal consumer and financial choices.

For further information to support teaching of the unit, view the:

- [Year level plan](#)
- [Teacher lesson overview](#)

Throughout the unit, ensure all students have opportunities to develop their higher-order thinking skills. Students develop skills in thinking when they are encouraged to reflect, inquire, generate, and analyse, synthesise and evaluate. Resources that support higher-order thinking skills:

- Helpful information - [Higher-order thinking skills Years P-9](#)

Duration: 4 Weeks

Australian Curriculum

F-6/7 HASS- Year 5

Year 5 Achievement Standard

By the end of Year 5, students describe the significance of people and events/developments in bringing about change. They identify the causes and effects of change on particular communities and describe aspects of the past that have remained the same. They describe the experiences of different people in the past. Students explain the characteristics of places in different locations at local to national scales. They identify and describe the interconnections between people and the human and environmental characteristics of places, and between components of environments. They identify the effects of these interconnections on the characteristics of places and environments. Students identify the importance of values and processes to Australia's democracy and describe the roles of different people in Australia's legal system. They recognise that choices need to be made when allocating resources. They describe factors that influence their choices as consumers and identify strategies that can be used to inform these choices. They describe different views on how to respond to an issue or challenge.

Students develop questions for an investigation. They locate and collect data and information from a range of sources to answer inquiry questions. They examine sources to determine their purpose and to identify different viewpoints. They interpret data to identify and describe distributions, simple patterns and trends, and to infer relationships, and suggest conclusions based on evidence. Students sequence information about events, the lives of individuals and selected phenomena in chronological order using timelines. They sort, record and represent data in different formats, including large-scale and small-scale maps, using basic conventions. They work with others to generate alternative responses to an issue or challenge and reflect on their learning to independently propose action, describing the possible effects of their proposed action. They present their ideas, findings and conclusions in a range of communication forms using discipline-specific terms and appropriate conventions.

Content Descriptions

Inquiry and skills

Evaluating and reflecting

- Evaluate evidence to draw conclusions ([ACHASSI101](#))
- Use criteria to make decisions and judgements and consider advantages and disadvantages of preferring one decision over others ([ACHASSI103](#))

Questioning

- Develop appropriate questions to guide an inquiry about people, events, developments, places, systems and challenges ([ACHASSI094](#))

Communicating

- Present ideas, findings, viewpoints and conclusions in a range of texts and modes that incorporate source materials, digital and non-digital representations and discipline-specific terms and conventions ([ACHASSI105](#))

Researching

Knowledge and Understanding

Economics and business

- Influences on consumer choices and methods that can be used to help make informed personal consumer and financial choices ([ACHASSK121](#))
- The difference between needs and wants and why choices need to be made about how limited resources are used ([ACHASSK119](#))
- Types of resources (natural, human, capital) and the ways societies use them to satisfy the needs and wants of present and future generations ([ACHASSK120](#))

Unit Plan

Plan Name: Unit 5 - HASS Year 5 (V8)

Year: 5

Status: Master

Learning Area/Subject: Humanities and Social Sciences

Duration: 4 Weeks

Unit Plan**Plan Name: Unit 5 - HASS Year 5 (V8)****Year:** 5**Status:** Master**Learning Area/Subject:** Humanities and Social Sciences**Duration:** 4 Weeks**Curriculum Priorities - Pedagogy****Considerations****Prior and future curriculum****Relevant prior curriculum**

Students require prior experience with the following in Year 4:

- Examine information to identify different points of view and distinguish facts from opinion (ACHASSI077)
- Draw simple conclusions based on analysis of information and data (ACHASSI079)
- Present ideas, findings and conclusions in texts and modes that incorporate digital and non-digital representations and discipline-specific terms (ACHASSI082)

Curriculum working towards

The teaching and learning in this unit work towards the following in Year 6:

- Evaluate evidence to draw conclusions (ACHASSI129)
- Use criteria to make decisions and judgements and consider advantages and disadvantages of preferring one decision over others (ACHASSI131)
- Present ideas, findings, viewpoints and conclusions in a range of texts and modes that incorporate source materials, digital and non-digital representations and discipline-specific terms and conventions (ACHASSI133)

Unit Plan**Plan Name: Unit 5 - HASS Year 5 (V8)****Year: 5****Status:** Master**Learning Area/Subject:** Humanities and Social Sciences**Duration:** 4 Weeks**General capabilities**

This unit provides opportunities for students to engage in the following general capabilities.

Literacy

- Comprehending texts through listening, reading and viewing
- Composing texts through speaking, writing and creating
- Text knowledge
- Grammar knowledge
- Word knowledge
- Visual knowledge

Numeracy

- Using spatial reasoning
- Interpreting statistical information

Critical and creative thinking

- Inquiring - identifying, exploring and organising information and ideas
- Generating ideas, possibilities and actions
- Reflecting on thinking and processes
- Analysing, synthesising and evaluating reasoning and procedures

Personal and social capability

- Self-management
- Social management

Ethical understanding

- Understanding ethical concepts and issues
- Reasoning in decision making and actions
- Exploring values, rights and responsibilities

For further information, refer to General capabilities in the Australian Curriculum and the Learning area specific advice.

Unit Plan**Plan Name: Unit 5 - HASS Year 5 (V8)****Year:** 5**Status:** Master**Learning Area/Subject:** Humanities and Social Sciences**Duration:** 4 Weeks**Cross-curriculum priorities****Sustainability**

Students will develop the knowledge, skills, values and world views necessary for people to act in ways that contribute to more sustainable patterns of living.

For further information, refer to Sustainability in the Australian Curriculum and the Learning area statements.

Assessing student learning**Assessment name: Consumer decision-making in Australian communities**

Assessment description: Students explain how people in communities make decisions about the use of resources to meet their needs and wants.

In this unit, assessment of student learning aligns to the following aspects of the achievement standard.

By the end of Year 5, students describe the significance of people and events/developments in bringing about change. They identify the causes and effects of change on particular communities and describe aspects of the past that have remained the same. They describe the experiences of different people in the past. Students explain the characteristics of places in different locations at local to national scales. They identify and describe the interconnections between people and the human and environmental characteristics of places, and between components of environments. They identify the effects of these interconnections on the characteristics of places and environments. Students identify the importance of values and processes to Australia's democracy and describe the roles of different people in Australia's legal system. They recognise that choices need to be made when allocating resources. They describe factors that influence their choices as consumers and identify strategies that can be used to inform these choices. They describe different views on how to respond to an issue or challenge.

Students develop questions for an investigation. They locate and collect data and information from a range of sources to answer inquiry questions. They examine sources to determine their purpose and to identify different viewpoints. They interpret data to identify and describe distributions, simple patterns and trends, and to infer relationships, and suggest conclusions based on evidence. Students sequence information about events, the lives of individuals and selected phenomena in chronological order using timelines. They sort, record and represent data in different formats, including large-scale and small-scale maps, using basic conventions. They work with others to generate alternative responses to an issue or challenge and reflect on their learning to independently propose action, describing the possible effects of their proposed action. They present their ideas, findings and conclusions in a range of communication forms using discipline-specific terms and appropriate conventions.

Monitoring student learning

Student learning should be monitored throughout the teaching and learning process to determine student progress and learning needs.

Each lesson provides opportunities to gather evidence about how students are progressing and what they need to learn next.

Unit Plan**Plan Name: Unit 5 - HASS Year 5 (V8)****Year:** 5**Status:** Master**Learning Area/Subject:** Humanities and Social Sciences**Duration:** 4 Weeks**Feedback****Feedback to students**

Establish active feedback partnerships between students, teachers and parents to find out:

- what each student already knows and can do
- how each student is going
- where each student needs to go next.

Ensure feedback is timely, ongoing, instructive and purposeful.

Use feedback to inform future teaching and learning.

Reflection on the unit plan

Identify what worked well during and at the end of the unit for future planning.

Unit Plan**Plan Name: Unit 5 - HASS Year 5 (V8)****Year:** 5**Status:** Master**Learning Area/Subject:** Humanities and Social Sciences**Duration:** 4 Weeks**Teaching Sequence**

Plan Name: Unit 5 - HASS Year 5 (V8)

Year: 5

Status: Master

Learning Area/Subject: Humanities and Social Sciences

Duration: 4 Weeks

Teaching Sequence

Topic	Researching options and analysing data	Topic Duration:	5 Lessons
Overview	Throughout this lesson series, students will: - describe factors that influence their choices as consumers - identify strategies that can be used to inform these choices		
Lessons	Teaching and Learning Sequence	Resources	
Lesson 1 Needs and wants	Lesson objectives Students will: - Understand the difference between needs and wants, and that choices need to be made about how limited resources are used. Evidence of learning Can the student: - Distinguish between needs and wants? - Identify the needs and wants for groups in society and explain reasons for differences? Example learning sequence - Explore the unit focus - Define key terms and sort and record information about resources as either 'needs' or 'wants' - Interpret information to identify and explain reasons for differences in needs and wants - Present findings about needs and wants in a variety of formats	Resources - Slideshow - Needs or wants? - Sheet - Needs or wants auction - Sheet - Categorising needs and wants - Supporting learning resource - HASS Glossary Year 5 Unit 5 Attachments Lesson plan	

Unit Plan

Plan Name: Unit 5 - HASS Year 5 (V8)

Year: 5

Status: Master

Learning Area/Subject: Humanities and Social Sciences

Duration: 4 Weeks

Lesson 2 Scarcity	Lesson objectives Students will: - Understand the concept of scarcity. - Understand that choices need to be made about the allocation of resources to satisfy society's needs and wants. Evidence of learning Can the student: - Explain the concept of scarcity and the need for choices about resource allocation using economics and business terms? - Reflect on learning to identify responses to the problem of scarcity in a familiar context? Example learning sequence - Explain the problem of scarcity and why choices need to be made about resource allocation - Examine information to identify responses to the problem of scarcity - Interact respectfully with others to identify possible effects of decisions - Present findings about how resources are allocated to satisfy society's needs and wants	Resources - Slideshow - Scarcity and resource allocation - Sheet - Making choices about resource allocation - Sheet - Scarcity cartoon - Supporting learning resource - Cartoon features Attachments Lesson plan
Lesson 3 Natural, human and capital resources	Lesson objectives Students will: - Understand that there are different types of resources. Evidence of learning Can the student: - Categorise resources as natural, human or capital resources? Example learning sequence - Define natural, human and capital resources - Sort and record information about resource types under the category headings of 'human', 'natural' or 'capital' - Present findings in an appropriate format	Resources - Slideshow - Natural, human and capital resources - Sheet - Categorising resources - Sheet - Resources sorting game Attachments Lesson plan

Unit Plan

Plan Name: Unit 5 - HASS Year 5 (V8)

Year: 5

Status: Master

Learning Area/Subject: Humanities and Social Sciences

Duration: 4 Weeks

Lesson 4 Ways societies use resources	Lesson objectives Students will: - Understand that resources are used to satisfy needs and wants. Evidence of learning Can the student: - Explain different ways resources are used to satisfy needs and wants? - Make a decision between alternatives regarding the use of resources? Example learning sequence - Pose questions about the ways societies use resources to satisfy present and future needs and wants - Examine sources to identify ways a community can use resources to satisfy its needs and wants - Interact respectfully with others to consider the advantages and disadvantages of alternatives - Make a decision between alternatives suggesting possible effects - Present findings about how a community can use resources to satisfy its future needs and wants	Resources - Sheet - Using resources to satisfy needs and wants Helpful information - Slideshow - <i>Aboriginal peoples' and Torres Strait Islander peoples' use of resources</i> (slideshow version, video version) Attachments Lesson plan
Lesson 5 Factors influencing consumer choices	Lesson objectives Students will: - Understand that different factors influence consumer choices. Evidence of learning Can the student: - Sort and record data and information about factors that influence consumer choices? Example learning sequence - Examine factors that influence consumer choices - Sort and record data and information from provided sources about factors that influence consumer choices - Present findings about how different factors influence consumer choices	Resources - Slideshow - Factors that influence consumer choices - Sheet - Social, ethical and environmental factors Helpful information - Website - <i>BBC Bitesize: Social and environmental issues</i> (TLF M016052) (http://www.bbc.co.uk/schools/gcsebitesize/design/foodtech/socialenvironmentalissues_act.shtml) Attachments Lesson plan

Teaching Sequence

Topic	Communicating and reflecting on findings	Topic Duration:	3 Lessons
Overview	Throughout this lesson series, students will: - recognise that choices need to be made when allocating resources - present their ideas, findings and conclusions in a range of communication forms using discipline-specific terms and appropriate conventions		
Lessons	Teaching and Learning Sequence	Resources	
Lessons 6-7 Strategies for informed personal consumer and financial choices	Lesson objectives Students will: - Understand that different methods can be used to help make informed personal consumer and financial choices. Evidence of learning Can the student: - Identify alternative transaction types for making a purchase and consider the advantages and disadvantages of each? - Identify and use strategies to make an informed consumer and financial choice between alternative products? - Present findings about strategies used to make a decision between alternative products? Example learning sequence - Examine alternative transaction types for making a purchase and consider the advantages and disadvantages of each - Record data and information from provided sources about alternative products and their features - Sort data and information about alternative products and their features into categories - Identify and use strategies to make an informed consumer and financial choice between alternative products - Reflect on learning to identify possible effects of decisions about alternative products - Present findings about strategies used to make a decision between alternative products	Resources - Sheet - Examining transaction types - Slideshow - <i>Strategies for making informed consumer and financial choices</i> (slideshow version, video version) - Sheet - Making an informed decision between alternatives - Sheet - Checklist for writing a recommendation Attachments Lesson plan

Duration: 4 Weeks

Assessment Task - Marking Guide

Assessment Task Name:	Consumer decision-making in Australian communities (Yr 05)	Technique:	Supervised assessment
		Date:	TBA
Description:	Students explain how people in communities make decisions about the use of resources to meet their needs and wants.		
Learning Area/Subject	Humanities and Social Sciences		
	Knowledge and Understanding	Communicating	
	Recognise that choices need to be made when allocating resources. Describe factors that influence their choices as consumers. Identify strategies that can be used to inform these choices.	Present their ideas, findings and conclusions in a range of communication forms using discipline-specific terms and appropriate conventions.	
A	◀ Connects multiple factors to infer usefulness of strategies. Supports descriptions with evidence from sources.	◀ Justifies ideas, findings and conclusions with detail from sources using various communication forms.	
B	◀ Explains how to use strategies to inform consumer choices. Uses examples to explain factors.	◀ Structures their responses using discipline-specific terms to explain their decision.	
C	◀ Recognises that choices need to be made when allocating resources. Describes factors that influence their choices as consumers. Identifies strategies that can be used to inform these choices.	◀ Presents their ideas, findings and conclusions in a range of communication forms using discipline-specific terms and appropriate conventions.	
D	◀ Identifies a factor that influences their consumer choices. States a strategy used to inform a choice.	◀ Uses terminology and information related to sources.	
E	◀ Lists consumer choices.	◀ Communicates ideas.
