

Lesson 11: The Power of Precise Vocabulary

Sunday, 10 May 2026 12:47 PM

Informative texts use technical vocabulary to be exact.

Part 1: Floods Archive Vocabulary Hunt

Search the [Floods Archive website](#) for these precise terms. Write the definition (using the tooltips) and identify where you found it.

Specialist Term	Definition	Location Found
Inundation		
Catchment		
Runoff		
Riverine		
Overland Flow		

Part 2: Precision Upgrade

Rewrite these simple sentences using at least one specialist term from the archive to make them more precise.

1. The rain water moved across the streets.

Upgrade:

2. The whole river area was wet from the rain.

Upgrade:

3. The flood covered the low houses.

Part 3: PEEL Paragraph

Using the 'Human Cost' sub-page https://mrsutherland.net/archives/Floods/Human_Cost/index.html, construct a **PEEL** paragraph about one social or mental health impact of flooding.

P	Point: What is your main idea about the human cost?
E	Explanation: How does this evidence support your point?
E	Evidence: Find a specific stat or quote from the archive.
L	Link: How does this relate back to the overall cost?
